Basic Medical Coding Training – Course Brochure

A practical, beginner-friendly program to launch your coding career.

Program Outcomes

- Understand the US healthcare revenue cycle and the role of coders
- Apply core ICD-10-CM and CPT/HCPCS guidelines to common outpatient scenarios
- Read provider documentation and translate it into accurate codes
- Avoid common edits and denials using NCCI and payer policies
- Meet entry-level productivity and quality benchmarks

Curriculum (Suggested 8 Modules)

Module 1: RCM & Compliance	• Revenue cycle overview • HIPAA & data privacy • Coding ethics & compliance
Module 2: Anatomy & Terminology Essentials	• Body systems crash course • Prefixes, suffixes, roots • Clinical documentation basics
Module 3: ICD-10-CM Foundations	• Code structure & conventions • Chapters, laterality, excludes notes • General and chapter-specific guidelines
Module 4: CPT & HCPCS Level II Basics	• CPT sections & modifiers • Global period & bundling • HCPCS supplies & drugs
Module 5: E/M Coding Essentials	• Medical decision making (MDM) overview • New vs established patients • Time-based selection basics
Module 6: Procedure Areas Snapshot	• Minor surgery • Radiology & pathology • Anesthesia concepts
Module 7: Clean Claims & Edits	• CMS-1500/UB-04 highlights • NCCI edits & bundling • Top denial reasons & fixes

Module 8: Job Readiness	• Mock assessments • Quality & productivity targets • Resume, interview, and LinkedIn polish
-------------------------	--

Batch Options & Schedule

- Weekday: Mon-Fri, 1.5-2 hours/day (5-6 weeks)
- Weekend: Sat-Sun, 3 hours/day (7-8 weekends)

Assessment & Certification

Unit quizzes, 2 mock tests, capstone coding audit. Certificate of Completion on $\geq 70\%$ score and 80% attendance.

Trainer Profile

Delivered by experienced coders/trainers with hands-on RCM exposure in outpatient specialties and audits.

Certified Professional Coder CPC

Training — Course Brochure

100% Success-Focused CPC Exam Preparation

Who Can Join?

Graduates in life sciences, pharmacy, nursing, or allied health | Experienced coders seeking CPC | Career switchers

Course Highlights

- Duration: 3-4 months
- Format: Live interactive classes + practice coding charts
- Study Material: CPC workbook, guidelines, 2000+ practice questions
- 10+ Mock Exams with feedback
- Placement Support & Resume Building

Curriculum (Modules)

Module 1: Medical Terminology & Anatomy	• Body systems crash course • Documentation basics
